BUSINESS CASE

Business case

What is the challenge?

Startups

fail to adapt innovative
solutions into mainstream
international markets.

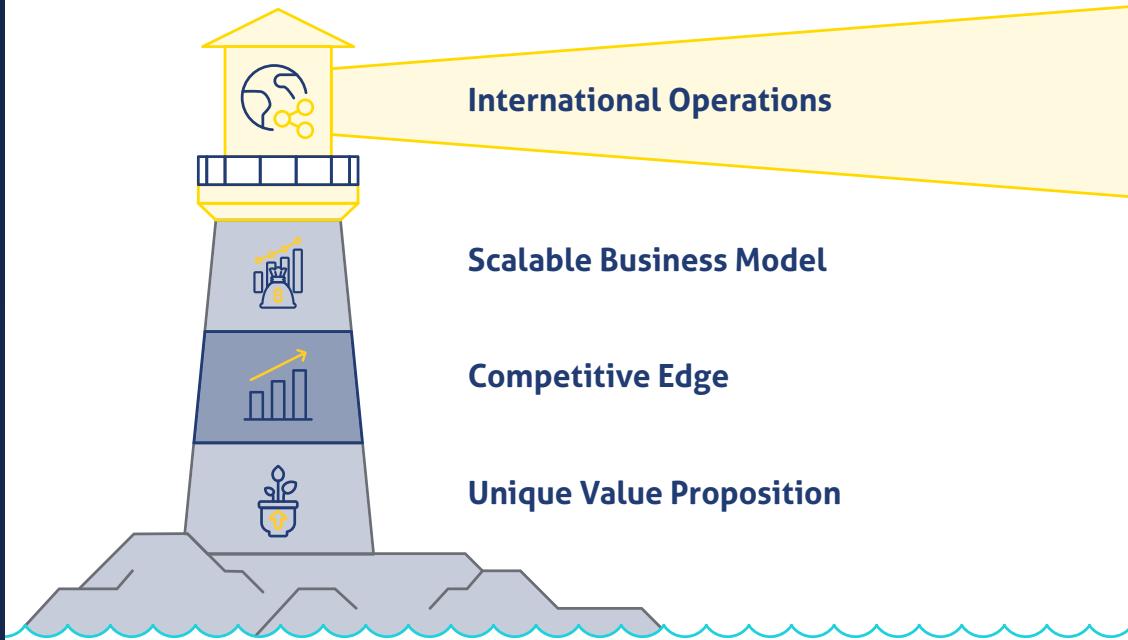

Fig. Topics to consider when building international businesses

Business case

Our services

Scope

Build and validate the business plan; team building, pricing, sales forecast, marketing, branding, competitive analysis...

Analyse new market opportunities, design your soft-landing strategy on new continents and identify new business opportunities to further deploy your market.

Optimise your IP strategy, identify potential protection measures to be taken and define the right valorisation or exploitation strategy in diverse geographies.

Guide the conceptualisation and design of new solutions, build a roadmap and identify the digital technologies to be integrated or supply chain requirements.

Deliverables

Business plan review
Mentoring sessions

Market study
Mentoring sessions

IP assessment

High-level product roadmap

Our expert's view

Example: International growth & soft-landing

“Expert support on internationalisation and approaching new markets is key to scale up partnership between companies from the European Union, Latin America and the Caribbean.”

Rubén Carrandi
Senior Project Leader
@EBN

Our expert's view

Example: Product roadmap & digital skills

"The result of this service will allow the alliance to have a product roadmap, and the definition of the technical team required for its new business line."

Claudia Montilla
Digital Transformation Manager
